DARING BANK ROBBER.

"Rev. Mr. Smith" Helps Himself to $1,300 in Cash in Broad Daylight.

QUEBEC, July 23.—A daring bank robbery was perpetrated here yesterday afternoon. A buggy drove up to the door of the upper town branch of the Union bank on Louis street, and a man entered and told Mr. Veasy, the manager, that the gentleman in the buggy at the door wanted to speak to him about opening an account, but was lame and unable to leave the vehicle. Mr. Veasy was alone at the time, but went to the window to speak to the occupant of the vehicle, and while his head was turned, the man who came inside and who presented a card bearing the name of "Rev. Mr. Smith," dashed through the front door with a tin box which he he picked up. It was several minutes before Veasy discovered the theft and at once notified the police, but the sharpers had got too good a start and have not yet been heard from. They hired their buggy from a livery stable that morning and that too is missing. The box contained only $1,300 in cash, but was filled with valuable bonds, including five bonds of the town of Levis, for a thousand dollars each.

THE MEXICAN BATTLE.

The Salvadoreans Gain a Decisive Victory Over the Guatemalians.

LA LIBERTA, San Salvador, July 23.—The latest news from the frontier confirms the reports in respect to the victory of the Salvadoreans over the forces of Guatemala in the battle of July 17th. The Guatemalians, 4,000 strong, invaded Salvador under command of Camileo Alvarez, Narceo Avillez and Pedro and Perz Barillas. The killed numbered over 200, with many wounded. Thirty refugees from Salvador, among them General Monterrosa, having given themselves up to the Salvadoreans, General Vilavicenceo, a Salvadorean traitor, attacked the Salvadorean forces on July 18th and was defeated. Guatemala commenced the warfare without a declaration of war. Many cases of rifles shipped from San Francisco for the Salvadorean government have been seized aboard the Pacific main steamship by the Guatemalian government. It is believed that General Fabio Moran, who was aboard the steamship and who is an aspirant for the presidency of Salvador, acted as informer to Guatemala and that the government seized the arms on information that he furnished.

Kelly, of South Berwick, a boy peddler, saw him and managed to pull him on board the train. The largest portion of the cargo goes to Chicago. Special trains will take it east.

EAGLE LAKE.

The Spring Fountain Park Assembly Increases in Interest.

EAGLE LAKE, July 23.

Special to THE SENTINEL.

The largest audience which has hitherto assembled in the auditorium, gathered yesterday morning for the purpose of listening to the celebrated and witty lecturer, Dr. Willits, of Dayton. Inimitable in expression and possessing a fund of rich humor, he held his audience alternately in rapt attention and laughter. The lecture was entitled "Sunshine." At the close of the lecture by request, the Linden Quartet, of Chicago, gave a laughable selection entitled "Tacks."

The event of the afternoon's session was a lecture by Rev. C. H. Caton, D. D., of Colorado, who accomplished such elegant work in Denver, by driving out the gamblers and saloons. He spoke of the relation of the labor question to the saloon, and argued that the poverty of the masses was owing not to luck, but wanting to make most of their opportunities. He contended that religion for the rich and poor were not alike; that in all great cities poverty marked the places of religious worship among the poor, while luxury followed the dwellings of the rich men. Politics, he believed, would yet have to be promulgated by the pulpit.

At 4:30 a grand concert was given in the auditorium, in which a well and specially trained chorus took part, under the direction of Professor Clippinger, of Chicago.

"Ireland" and "Scotland" were the themes of Dr. M. M. Parkhurst's discourse at the evening session. He spoke of the beauties of the scenery, graphically describing those parts having historic interest or world-wide reputation. The lecture was illustrated by some beautiful stereoptican views.

The lecture of the famous Bostonian, Rev. Joseph Cook, "Does Death End All?" was a truly great effort. Not alone an oratorical masterpiece, the discourse abounds with scientific research and the labor of years in collecting material. It was so continuous and replete with technicalities that an intelligent synopsis would be impossible.

There seems to be no doubt that the first assembly will be a success this season and a greater one in following years. An old Chautauquan, who was present at Eagle Lake, said that though a frequent visitor at the opening of these assemblies, he had never attended one under such auspicious circumstances.

DEATH OF JOHN HOLT.

A Well-known Englishman Called Home--Death of Mrs. Engel Holman.

John Holt, an old and highly respected citizen, who has been ill for a few weeks past, died last night as the clock struck the hour of 12, at his home, 266 DeWald street. The deceased was seventy-one years of age and the cause of his death is attributable to complications superinduced by his advanced years. Mr. Holt was born in Manchester, England, but was for upwards of twenty-five years a resident of Fort Wayne, being employed much of that time as a boiler-maker in the Wabash shop. Besides a widow, four sons survive him, as follows: Benjamin and John, of Dakota; Walter, of Roncevert, W. Va., and Alfred, of Wisconsin, the latter two of whom were at his bedside. The funeral will be announced hereafter.

DESTROYING CROPS.

The Grasshopper Making Ravages in Jefferson Township.

A prominent farmer of Jefferson township, who was in the city to-day, gave the information that all of the farmers he knew of out in his township, were cutting their oats green on account of the ravages of the grasshopper, which infests that locality. He said that in some fields the grain was completely destroyed. He thought that between the drouth and the grasshopper, the crops in this portion of the state would be almost a failure this year.

THE death of Mr. Walker, of Missouri, the ninth member of congress who has died this session, makes the greatest record of mortality in congress ever known.

BEFORE leaving for Washington Mr. Hale declared emphatically that Mr. Blaine and the president were in perfect harmony. Mr. Blaine aimed to uphold the administration in every particular.

THE current number of Science contains an interesting article on "Tornadoes" in which it is asserted that during the period between 1873 and 1889 215 tornadoes visited Kansas, which is a larger showing than is made by any other state in the union.

A SPECIAL dispatch from Cape May, N. J., says: "Mrs. Harrison says that the president had refused to have the cottage accepted as a gift, but liking Cape May so well, especially the cottage, he had bought it outright. The statement in the newspapers that the price was $10,000 was untrue and the real price will not yet be made known."

THE city council did right at its meeting last night in raising the levy for school purposes. We ought not, under any circumstances, to allow our public schools to deteriorate from their present high standard. Give our rising generation the best education possible. The public schools are the safe-guard of the nation and they should be liberally supported.

A WASHINGTON special quotes Direcort of the Mint Leach as saying the advance in the price of silver is due to speculation. New York parties are engaged in getting up a corner in anticipation of the new law which goes into effect September 13. The Western National bank has stored away about seven million ounces, and upwards of two million ounces are held by others in that city. The market may go still higher.

THE veteran Dan Rice is in Albany, N. Y., says the Dramatic News, visiting his old friend, Patrick Ryan. Despite Mr. Rice's three-score years, he looks as hale and hearty as when he made his fathers and grandfathers merry by his wit. The old saying, "once in the show business, always in it," is exemplified in the case of Dan Rice, who announces his intention to return to the sawdust again, with Mr. Patrick Ryan. It will be an old-time one-ring circus, and will open in Galveston, Tex., in September, and play the southern cities, coming north in the spring.

THE election in Indiana this year will be an important one, and recognizing this fact, although neither party has put a state ticket in the field, both the democrats and republicans have opened headquarters at Indianapolis and are doing active work. It has been semi-officially announced that the contest this year is going to be over the legislature. Chairman Michener's plan is to sacrifice anything and everything to secure members of the legislature and in due time instructions to that effect will go out to party workers throughout the state. Chairman Michener having decided upon such a movement, the democrats in self-defense will be compelled to follow suit. The new legislature will have a United States senator to elect, and as the republicans will, it is said, redistrict the state if they get the control, it is probable that the campaign will begin to center around the legislative body.

THE Guatemala minister has received a telegram from the Guatemala minister of foreign affairs, which says: "Against the positive orders which the government had given, one of our officers took some of his troops across the line. There was skirmishing of slight importance and our troops, few in number, were ordered to return. They lost nothing. The officer who disobeyed orders by crossing the frontier is under arrest and will be court-martialed." The president of Guatemala telegraphed the minister that "the Salvador enemies of Ezeta were met and routed by Ezeta."

MRS. JEFFERSON DAVIS, in a letter to a friend in New York, thus writes: "I am not surprised that you believe that our daughter Varina ('Winnie') is our only surviving child, as almost in every notice of her it is stated that she is 'the only daughter of the late Jefferson Davis.' But it is a cause of constantly recurring thankfulness to me that if we were to be deprived of all our sons by death two daughters survive. Margaret, the elder, is the wife of J. A. Hayes, a Mississippian by birth, now a banker in Colorado Springs. She was most tenderly beloved by her father and it was one of the sorrows of his later years that Mr. Hayes' health required her residence to be so far removed from ours."

Journal.—The Peru papers are throwing out insinuations about the Fourth of July games in this city, which Burnett umpired. The fact of the matter is that a few of the sports of that town came here and bet on the game and the only chance to get even was to vent their spleen on Burnett, who umpired very impartially, the only kicks by the visitors being made on balls and strikes and they were few. In the decision at the plate in Peru Monday, the Peru catcher even said it was not out and the "grand stand fiends" refused to believe him. Burnett is the "squarest" in the league.

Barnum and Bailey Sued.

PITTSBURG, Pa., July 23.—Julius Possiel brought suit against Barnum and Bailey, the showmen, to recover $20,000 damages for personal injuries. Mr. Posiel attended the circus here on September 24 last, and while getting down from one of the high tiers of seats, slipped, fell and broke his ankle, He alleges that fall was due to the negligence of the circus people.

Woman's Press Association.

TRAVERSE CITY, Mich., July 23.—The first woman's press association ever organized in Michigan was brought into existence here yesterday at a convention held by a large number of newspaper workers. The movement was started several months ago by Miss Etta S. Wilson, of Grand Rapids.

DEATH OF A BANDIT.

A Young Man's Heroism--Leading the Troops to Chavez's Rendezvous.

SAN JUAN DE COSTA RICA, July 23.—The notorious bandit Hermanezilio Chavez, of San Salvador, who for the past five years has made travel dangerous on the roads leading into La Liberta, has been arrested, tried, convicted and shot, to the great relief of the country. He was tracked to his lair by a boy of seventeen, whose mother he had maltreated, robbed and killed, and discovered to the troops, by whom he was surrounded, with two of his companions, and captured. The boy, when he heard of the manner of his mother's death threw down the implements with which he was working on a coffee plantation, seized his machette and declared he would never do another day's work until his mother was avenged, and disappeared.

Ten days afterward he came to the police headquarters, said he had discovered the rendezvous of Chavez and his accomplices on an abandoned ranch a few miles out from the city. He led the troops to the place in the dead of night. The bandits, finding themselves trapped, surrendered without a shot.

SLEPT FOR TEN DAYS.

The Singular Case of Miss Lizzie Long at Mount Morris, N. Y.

MOUNT MORRIS, N. Y. July 23.—A singular case is taxing the skill of the local physicians. Miss Lizzie Long, aged twenty-six years, went to sleep on Sunday, July 13, and has not since awakened. On that day she complained of numbness and drowsiness, and was put to bed and medical aid summoned. Restoratives were administered and she passed into what appeared to be a peaceful sleep. On the following day a diagnosis of her condition was made and it was pronounced a case of catalepsy. Up to the present time she has shown no sign of wakefulness, except when ice cold water is applied to her temples and wrists, and even that now fails to cause any very perceptible change. She breathes freely and natually, with pulse nearly normal and temperature slightly above medium. Medicine and nourishment are administered by forcing open her jaws. She is of a robust frame and has been generally healthy. The development of the case is anxiously watched by the medical profession.

Indian Pupils Delayed.

CARLISLE, Pa., July 23.—Owing to the failure of congress to pass the appropriation bills, about sixty pupils of the Indian training school of this city who have completed the course of five years' study prescribed by the government, are still delayed here at the school awaiting transportation to their homes on the various reservations. However, it is thought that some arrangement will be made by Captain Pratt, manager of the school, for their departure soon.

Pool Rooms Raided.

CHICAGO, July 23.—The police yesterday afternoon raided two pool rooms. The first of these was Frank Williams' place at 71 Monroe street; the other, Crawford & Horton's rooms at 141 Madison street, in the rear. About a dozen men were captured and will be arraigned before Justice Prindiville to-day.

AN ACTOR'S ODD NOTIONS.

Harry Robinson, of the Wilbur Company, Locked Up, a Lunatic.

CINCINNATI, July 23.—Harry Robinson, leading comedian of the A. R. Wilbur Comedy company, was examined for lunacy in the probate court yesterday and was sent to Longview. The affidavit was made by Miss Kate Eckert, the soubrette of the company, to whom he was engaged to be married.

When playing at Leavenworth, Kas., Robinson broke up a matinee performance by refusing to speak his lines. At Fort Scott he purchased a revolver and threatened to take the lives of the whole company. His great ambition was to purchase all the theaters in Kansas City. Finally Manager Wilbur had him committed to the asylum at St. Joseph, Mo., from which he was released only three weeks ago. One of his curious delusions is that some unknown individual is constantly applying an electric battery to him.

DREADFUL PSORIASIS

Covering Entire Body with White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eye sight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the Cuticura Remedies, and after using two bottles Cuticura Resolvent, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of Cuticura Resolvent and one box of Cuticura, and one cake of Cuticura Soap, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the Cuticura Remedies cured it without any scars. I cannot express with a pen what I suffered before using the Remedies. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight.

Peace on Earth

Awaits that countless army of martyrs, whose ranks are constantly recruting from the victims of nervousness and nervous diseases. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the finest and most genial of tonic per fines, pursued with reasonable persistence. Easier, pleasanter and safer this than to swash the victualling department with pseudo-tonics, alcoholic or the reverse, beef extracts, nerve foods, narcotics, sedatives and poisons in disguise. "Tired Nature's sweet restorer, balmy sleeps," is the providential recuperant of weak nerves and this glorious franchise being usually the consequences of sound digestion and increased vigor, the great stomachic which insures both is productive also of repose at the required time. Not unrefreshed awakens the individual who uses it, but vigorous, clear headed and tranquil. Use the Bitters also in fever and ague, rheumatism, kidney troubles, constipation and billiousness.

HAIR ON THE FACE, NECK, ARMS OR ANY PART OF THE PERSON

QUICKLY DISSOLVED AND REMOVED WITH THE NEW SOLUTION

MODENE

AND THE GROWTH FOREVER DESTROYED WITHOUT THE SLIGHTEST INJURY OR DISCOLORATION OF THE MOST DELICATE SKIN.—DISCOVERED BY ACCIDENT.

IN COMPOUNDING, an incomplete mixture was accidentally spilled on the back of the hand, and on washing afterward it was discovered that the hair was completely removed. We purchased the new discovery and named it MODENE. It is perfectly pure, free from all injurious substances, and so simple any one can use it. It acts mildly but surely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other preparation ever used for a like purpose, and no scientific discovery ever attained such wonderful results. IT CANNOT FAIL. If the growth be light, one application will remove it permanently; the heavy growth such as the beard or hair on moles may require two or more applications before all the roots are destroyed, although all hair will be removed at each application, and without the slightest injury or unpleasant feeling when applied or ever afterward. ——MODENE SUPERCEDES ELECTROLYSIS.——

——Recommended by all who have tested its merits—Used by people of refinement.——

Gentlemen who do not appreciate nature's gift of a beard, will find a priceless boon in Modene, which does away with shaving. It dissolves and destroys the life principle of the hair, thereby rendering its future growth an utter impossibility, and is guaranteed to be as harmless as water to the skin. Young persons who find an embarrassing growth of hair coming, should use Modene to destroy its growth. Modene sent by mail, in safety mailing cases, postage paid, (securely sealed from observation) on receipt of price, $1.00 per bottle. Send money by letter, with your full address written plainly. Correspondence sacredly private. Postage stamps received the same as cash. ALWAYS MENTION YOUR COUNTY AND THIS PAPER.

"There goes my corset-lace again!"

And it generally happens at an inconvenient time. Do you know why it breaks? The eyelet cuts it.

Eyelets are going to cut no more; for the two best corsets are eyeleted with loops of corset lace, which neither cut nor show through a thin dress.

The Ball is the easy corset that has soft eyelets; the Kabo has them also. The Kabo may be called the corset that stays where you put it.

Wear them two or three weeks; and then, if not satisfactory, take them back and get your money.

A BAD WRECK

Occurs in the Yards of the Pennsylvania Company---The Local Budget.

Quite a bad wreck took place yesterday afternoon at the Pittsburg yards. A north bound freight of the Grand Rapids road, was pulling out of the yards at a low rate of speed. One of the switches was accidentally left open and the train passed off the main track and ran into switch engine No. 20, of the Pittsburg road, which was switching some cars on the next track. The fireman and engineers on both engines saw the danger and jumped off. The Grand Rapids freight went crashing into the other train and threw seven cars off the track, upsetting them and smashing the frame work on three of them almost to pieces, and scattering the contents. The cab of the switch engine was broken to pieces and the engine was very badly damaged and will have to be placed in the shop for repairs. The wrecking crew were called out and the track was soon cleared without delaying any of the passenger trains. Luckily no one was injured. The loss to the company will be several thousand dollars. The blame is laid on the switch tender, who should have had the switch turned so that the freight would have passed on the main track.

GOSSIP OF THE DAY.

C. Soest has resigned his position in the Pittsburg shops.

J. L. Lamar, engineer on the Pittsburg road, is off duty on a vacation.

Several of the engines of the Pittsburg road are in the shops for repairs.

Louie Gans has reported for duty in the Pittsburg car shop after a sickness.

Daniel McCaffrey, of the American wheel works, is at Churubusco to-day.

The west-bound limited on the Pittsburg road was three hours late this morning.

H. Harmeyer, of the Pittsburg blacksmith shop, is off duty on account of sickness.

Engineer E. H. Rogers, of the Pittsburg road, is off duty on account of sickness.

The railway men's union meeting at Logansport Sunday was very largely attended. The desire for an advance in pay has reached the railway telegraph operators. On several roads, in the last few days, the officials have been asked if they could not consistently advance the pay of their operators.

The new Peru and Detroit road will be connected with the main line of the Wabash at a point about three miles east of Peru. The Wabash will then use a new track from that point into town which is now being built.

A private car has just been completed for the president of the Mexican Central road, which is said to be the most perfect in its appointments of any private car yet constructed. As it weighs 89,000 pounds there will be some grumbling done by the engineers of some of the fast express trains if they are asked to haul this car on the rear of a heavy Pullman or Wagner train.

In speaking of the new order on the Wabash prohibiting flannel shirts, the Toledo Bee suggests that it might be well for the Wabash to import a bevy of English dudes to punch its tickets, that the fastidious officials of the road might not have their vision offended by the sight of the vulgar flannel shirt. Business men find the flannel shirt a boon in warm weather—why should it be denied the conductor?

A recent invention consists of a fender for street railway cars run by electricity. It presents a platform capacious enough to receive a victim so unfortunate as to be caught upon the track before the car. At a slope before it is a heavy four-ply rubber belting, pliable enough to pass over paving stones and similar objects, but sufficiently rigid to prevent an arm or leg from being drawn under the fender.

The shipments of flour, grain and provisions from Chicago to the seaboard by the lines of the Central Traffic Association last week aggregated 24,437 tons, against 18,086 for the preceeding week, a increase of 6,351 tons, and against 18,849 for the corresponding week last year, an increase of 6,288 tons. The Vanderbilt lines carried 46.1 per cent. of the whole business; the Pennsylvania lines 21.1; the Chicago & Grand Trunk, 21.8, and the Baltimore & Ohio, 11.

"Just as Good,"

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is peculiar to itself.

No Enthusiasm.

I told him I had taken Hood's Sarsaparilla, knew what it was, was satisfied with it, and did not want any other. When I began taking Hood's Sarsaparilla I was feeling real miserable with dyspepsia, and so weak that at times I could hardly

THE CITY COUNCIL

Decides to Make an Additional Levy of Five Per Cent. For School Purposes.

The city council met in regular session last night at the council chambers. The principal business of interest transacted was that relating to the additional tax levy, which was defeated at the session of two weeks ago. The subject was introduced by the report of the board of school trustees that was demanded by the council at its last session, for the purpose of securing certain information relative to the conduct of the schools. What was done by the council is told by the Morning Press, and we reproduce it.

The trustees in their report stated that there are now school buildings, in which there are employed 107 teachers, whose salaries range from $36 to $160 per month. The report stated that the nativity of these teachers could not be given, but that eighty-five of them were residents of this city at the time of and prior to their appointments, and received their education here. Nine of the teachers were residents at the time of their appointment, one a special teacher of reading was secured from the Boston school of oratory, one teacher in the department of science came from Wabash college, and eleven were chosen from outside cities according to the peculiar fitness for the work assigned them, and their employment occurred at periods ranging nine years past. The board reported that $20,700 had been expended for necessary repairs, and that there is now in the tuition fund $36,625.86, and in the general fund $42,748.02. The report bears the signatures of J. M. Moritz and A. E. Hoffman, president and secretary of the board respectively. It was referred to the committee on education.

As soon as the report was disposed of Mr. Boltz arose and stated that since the school matter had been called up he would like to have the resolution made by Mr. Vordermark, and defeated at the last meeting, providing for an additional levy of eight cents on each $100 valuation, reconsidered. He made a motion to that effect which was promptly seconded and carried. Thereupon Mr. Boltz moved that the levy provided for in the resolutson be reduced to five cents on the $100 valuation. The motion was not argued and on an immediate vote was carried. The question of carrying the resolution as amended, called Mr. Gordon to his feet, and he proceeded to oppose it in a vigorous manner, contending that there was plenty of money in the treasurer to run the schools next year. He called attention also to the $42,000 in the general fund, and thought that the members in favor of the levy had not made sufficient effort to see how well the school funds are supplied. Mr. Boltz defended his motion by stating that so far as he could determine, although there might be enough money on hand to run the schools next year, the treasury would be bankrupted for 1891. He informed the council that the $42,000 referred to by Mr. Gordon could not be used except for new buildings and grounds, and was excluded from application to tuition purposes. Mr. Cody opposed the resolution on the same ground that Mr. Gordon assumed. He took occasion to severely censure the board of trustees for alleged neglect of duty, and stated that their report was not what the council had asked for. He termed it a blindfold report, and said that the members of the board had given evidence that they were incapable of holding their positions on it. The resolution was carried by a vote of four-teen to four. This action will have the effect of restoring the schools to the condition they were at the end of last year.

THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Again."

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— DOLLARS.

$578,345 00/100

29 DEC 28 1889.

CERTIFIED, Payable through New York Clearing House, N. B. A.

E. C. POTTER & CO.

—E. C. POTTER & CO.—

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

REPORT OF SPECIAL COMMITTEE.

We, a majority of your special committee appointed to consider and report upon the propriety and necessity for a Ninth ward sewer, running from the grounds of the Catholic asylum south to Third street and thence to the St. Marys river, respectfully report that in our opinion drainage is absolutely necessary in the locality referred to. The orphan asylum has no drainage except the old bed of the feeder canal, and when drainage is placed thereon it remains foul and offensive to the public health in general but to the little inmates of the asylum in particular. It will, built on the line suggested, afford drainage for many cellars and outhouses.

Before any final resolution for its construction is passed some proceedings will be necessary to authorize its construction in and under private grounds, or its course will have to be slightly modified.

We recommend the construction of a sewer from the points named.

Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scarey. We have found Chamberlain's Remedy the very thing to straighten one out in such cases, and always keep it about. It is somewhat similar to the usual cholera cures, but seems to contain ingredients that render it more pleasant to take, and that do their work more quickly. Sheriff Devereaux tells us that he is subject to cholera morbus, and recently felt a spell coming on, when he obtained a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and two doses made him all right. We are not writing this for a pay testimonial, but to let our readers know what is a good thing to keep handy in the house.—Troy, Kas., Chief. For sale by George H. Loesch, druggist.

ROUNDING A CURVE

Two Trains Crash Together and Four Men are Killed--Other Fatal Accidents.

SYCAMORE, Ill., July 23.—The fast mail going east, which passes Malta a little before noon, ran upon a side track there at full speed yesterday and collided with a freight train. Several persons were injured and Fireman Fullman, of the passenger train, was killed.

NEW YORK, July 23.—A fire in the pump room of the Consolidated Gas Co. at the foot of East Twenty-first street this morning, caused a loss of $10,000. James H. DeVoe, the engineer, was so seriously burned that he died.

CHICAGO, July 23.—A caldron containing ten tons of molten steel, was overturned at the converter in the Illinois works on the north branch last night, and Anton Prendle and James Lavinbuckley, were horribly burned and will probably die. Both men were taken to Alexandros hospital, where little hope was given for their recovery.

BANGOR, Me., July 23.—Henry Durbent, a telegraph operator at Lowelltown, while gunning was shot and killed by the accidental discharge of his rifle Monday. He lately came from England.

DARING BANK ROBBER.

"Rev. Mr. Smith" Helps Himself to $1.300 in Cash in Broad Daylight.

QUEBEC, July 23.—A daring bank robbery was perpetrated here yesterday afternoon. A buggy drove up to the door of the upper town branch of the Union bank on Louis street, and a man entered and told Mr. Veasy, the manager, that the gentleman in the buggy at the door wanted to speak to him about opening an account, but was lame and unable to leave the vehicle. Mr. Veasy was alone at the time, but went to the window to speak to the occupant of the vehicle, and while his head was turned, the man who came inside and who presented a card bearing the name of "Rev Mr Smith," dashed through the front door with a tin box which he he picked up. It was several minutes before Veasy discovered the theft and at once notified the police, but the sharpers had got too good a start and have not yet been heard from. They hired their buggy from a livery stable that morning and that too is missing. The box contained only $1,300 in cash, but was filled with valuable bonds, including five bonds of the town of Levis, for a thousand dollars each.

THE MEXICAN BATTLE.

The Salvadoreans Gain a Decisive Victory Over the Guatemalians.

LA LIBERTA, San Salvador, July 23.—The latest news from the frontier confirms the reports in respect to the victory of the Salvadoreans over the forces of Guatemala in the battle of July 17th. The Guatemalians, 4,000 strong, invaded Salvador under command of Camileo Alvarez, Narceo Avillez and Pedro and Perz Barillas. The killed numbered over 200, with many wounded. Thirty refugees from Salvador, among them General Monterrosa, having given themselves up to the Salvadoreans, General Vilavicenceo, a Salvadorean traitor, attacked the Salvadorean forces on July 18th and was defeated. Guatemala commenced the warfare without a declaration of war. Many cases of rifles shipped from San Francisco for the Salvadorean government have been seized aboard the Pacific main steamship by the Guatemalian government. It is believed that General Fabio Moran, who was aboard the steamship and who is an aspirant for the presidency of Salvador, acted as informer to Guatemala and that the government seized the arms on information that he furnished.

HANDSOMELY REWARDED.

A Peddler Boy Given $5,000 for Saving a Wealthy Man's Life.

PORTLAND, Maine, July 23.—Yesterday a wealthy Montreal man attempted to board a train at Elm Orchard, after it had started. He ran to the rear end of the baggage car and caught the railing, but lost his footing. As he was hanging to the railing he swung between the cars and was losing his grip, when Frank E. Kelly, of South Berwick, a boy peddler, saw him and managed to pull him on board the train. When the man recovered he asked the lad's name and said he had saved his life and promised to send him a check for $5,000 when he reached Montreal.

The largest portion of the cargo goes to Chicago. Special trains will take it east.

EAGLE LAKE.

The Spring Fountain Park Assembly Increases in Interest.

EAGLE LAKE, July 23.

Special to THE SENTINEL.

The largest audience which has hitherto assembled in the auditorium, gathered yesterday morning for the purpose of listening to the celebrated and witty lecturer, Dr. Willits, of Dayton. Inimitable in expression and possessing a fund of rich humor, he held his audience alternately in rapt attention and laughter. The lecture was entitled "Sunshine." At the close of the lecture by request, the Linden Quartet, of Chicago, gave a laughable selection entitled "Tacks."

The event of the afternoon's session was a lecture by Rev. C. H. Caton, D. D., of Colorado, who accomplished such elegant work in Denver, by driving out the gamblers and saloons. He spoke of the relation of the labor question to the saloon, and argued that the poverty of the masses was owing not to luck, but wanting to make most of their opportunities. He contended that religion for the rich and poor were not alike; that in all great cities poverty marked the places of religious worship among the poor, while luxury followed the dwellings of the rich men. Politics, he believed, would yet have to be promulgated by the pulpit.

At 4:30 a grand concert was given in the auditorium, in which a well and specially trained chorus took part, under the direction of Professor Clippinger, of Chicago.

"Ireland" and "Scotland" were the themes of Dr. M. M. Parkhurst's discourse at the evening session. He spoke of the beauties of the scenery, graphically describing those parts having historic interest or world-wide reputation. The lecture was illustrated by some beautiful stereoptican views.

The lecture of the famous Bostonian, Rev. Joseph Cook, "Does Death End All?" was a truly great effort. Not alone an oratorical masterpiece, the discourse abounds with scientific research and the labor of years in collecting material. It was so continuous and replete with technicalities that an intelligent synopsis would be impossible.

There seems to be no doubt that the first assembly will be a success this season and a greater one in following years. An old Chautauquan, who was present at Eagle Lake, said that though a frequent visitor at the opening of these assemblies, he had never attended one under such auspicious circumstances.

LIKE A SERPENT!

Descends a Storm Cloud in Minnesota Demolishing Buildings and Doing Deadly Work.

MARSHAL, Minn., July 23.—At 5:30 yesterday a black cloud, resembling a great serpent, reached downward from the dense black masses of storm cloud that had formed during the afternoon, and moving in a southeasterly direction demolished the buildings of three farmers living nine miles northwest of here. A child of Felix Dearcau had its leg broken, another had its head crushed and died during the night. Mrs. Dearcau was also seriously bruised. Mrs. A. M. Opdal and child were blown by the cyclone on to a wire fence and seriously bruised. Two of Opdahl's horses were carried from the barn to a pasture near by without injury.

DEATH OF JOHN HOLT.

A Well-known Englishman Called Home--Death of Mrs. Engel Holman.

John Holt, an old and highly respected citizen, who has been ill for a few weeks past, died last night as the clock struck the hour of 12, at his home, 266 DeWald street. The deceased was seventy-one years of age and the cause of his death is attributable to complications superinduced by his advanced years. Mr. Holt was born in Manchester, England, but was for upwards of twenty-five years a resident of Fort Wayne, being employed much of that time as a boiler-maker in the Wabash shop. Besides a widow, four sons survive him, as follows: Benjamin and John, of Dakota; Walter, of Roncevert, W. Va., and Alfred, of Wisconsin, the latter two of whom were at his bedside. The funeral will be announced hereafter.

Mrs. Engel Holman, of Marion township, died last night of old age, having attained her seventy-sixth year. The deceased leaves several married children. She was born in Hanover, Germany, and was a charitable and kind old lady, who was loved and esteemed. The funeral will take place to-morrow at 10 a. m., from the residence on the Decatur gravel road.

Mr. and Mrs. Schlatter will leave for Mackinaw and a tour of the lakes, to be absent about ten days. The wedding has been kept very quiet and the affair will create quite a stir in social circles.

DESTROYING CROPS.

The Grasshopper Making Ravages in Jefferson Township.

A prominent farmer of Jefferson township, who was in the city to-day, gave the information that all of the farmers he knew of out in his township, were cutting their oats green on account of the ravages of the grasshopper, which infests that locality. He said that in some fields the grain was completely destroyed. He thought that between the drouth and the grasshopper, the crops in this portion of the state would be almost a failure this year.

THIS DAY IN THE PAST.

1794—Death of Alexander de Beauharnais, first husband of the Empress Josephine, aged 34.

1798—Insurrection in Ireland, led by Robert Emmet.

1810—Charlotte Cushman born in Boston.

1860—The Prince of Wales and suite landed at St. Johns, N. B., on a visit to America.

1865—The Great Eastern sailed from Valencia, Ireland, with 2,300 miles of cable. The expedition failed.

1869—Arrival in England of the French Atlantic cable fleet at Dunsbury, Mass.

1870—Gen. Wolseley of the British army, then colonel, arrived at Fort Garry, Manitoba, with troops and suppressed the insurrection.

1872—A fire in Boston of $120,000,000 announced. Nearly twelve times the amount subscribed for in Paris alone.

1875—Death of Isaac M. Singer, of sewing machine fame.

1878—Death of Minnie Warren, dwarf wife of Gen. Tom Thumb, one of the smallest known specimens of humanity.

1885—Gen. U. S. Grant died at Mt. MacGregor, N. Y.

1889—Parliament voted $2,000,000 for New Congo and East Africa.

THE federal election bill is a menace to the liberty of the people and a dangerous measure.

THE candidates for state offices on both the democratic and republican tickets, are hustling around through the Indiana counties.

THE death of Mr. Walker, of Missouri, the ninth member of congress who has died this session, makes the greatest record of mortality in congress ever known.

BEFORE leaving for Washington Mr. Hale declared emphatically that Mr. Blaine and the president were in perfect harmony. Mr. Blaine aimed to uphold the administration in every particular.

THE current number of Science contains an interesting article on "Tornadoes" in which it is asserted that during the period between 1873 and 1889 215 tornadoes visited Kansas, which is a larger showing than is made by any other state in the union.

A SPECIAL dispatch from Cape May, N. J., says: "Mrs. Harrison says that the president had refused to have the cottage accepted as a gift, but liking Cape May so well, especially the cottage, he had bought it outright. The statement in the newspapers that the price was $10,000 was untrue and the real price will not yet be made known."

THE city council did right at its meeting last night in raising the levy for school purposes. We ought not, under any circumstances, to allow our public schools to deteriorate from their present high standard. Give our rising generation the best education possible. The public schools are the safe-guard of the nation and they should be liberally supported.

A WASHINGTON special quotes Director of the Mint Leach as saying the advance in the price of silver is due to speculation. New York parties are engaged in getting up a corner in anticipation of the new law which goes into effect September 13. The Western National bank has stored away about seven million ounces, and upwards of two million ounces are held by others in that city. The market may go still higher.

THE veteran Dan Rice is in Albany, N. Y., says the Dramatic News, visiting his old friend, Patrick Ryan. Despite Mr. Rice's three-score years, he looks as hale and hearty as when he made his fathers and grandfathers merry by his wit. The old saying, "once in the show business, always in it," is exemplified in the case of Dan Rice, who announces his intention to return to the sawdust again, with Mr. Patrick Ryan. It will be an old time one ring circus, and will open in Galveston, Tex., in September, and play the southern cities, coming north in the spring.

THE election in Indiana this year will be an important one, and recognizing this fact, although neither party has put a state ticket in the field, both the democrats and republicans have opened headquarters at Indianapolis and are doing active work. It has been semi-officially announced that the contest this year is going to be over the legislature. Chairman Michener's plan is to sacrifice anything and everything to secure members of the legislature and in due time instructions to that effect will go out to party workers throughout the state. Chairman Michener having decided upon such a movement, the democrats in self-defense will be compelled to follow suit. The new legislature will have a United States senator to elect, and as the republicans will, it is said, redistrict the state if they get the control, it is probable that the campaign will begin to center around the legislative body.

THE Guatemala minister has received a telegram from the Guatemala minister of foreign affairs, which says: "Against the positive orders which the government had given, one of our officers took some of his troops across the line. There was skirmishing of slight importance and our troops, few in number, were ordered to return. They lost nothing. The officer who disobeyed orders by crossing the frontier is under arrest and will be court-martialed." The president of Guatemala telegraphed the minister that "the Salvador enemies of Ezeta were met and routed by Ezeta."

MRS. JEFFERSON DAVIS, in a letter to a friend in New York, thus writes: "I am not surprised that you believe that our daughter Varina ('Winnie') is our only surviving child, as almost in every notice of her it is stated that she is 'the only daughter of the late Jefferson Davis.' But it is a cause of constantly recurring thankfulness to me that if we were to be deprived of all our sons by death two daughters survive. Margaret, the elder, is the wife of J. A. Hayes, a Mississippian by birth, now a banker in Colorado Springs. She was most tenderly beloved by her father and it was one of the sorrows of his later years that Mr. Hayes' health required her residence to be so far removed from ours."

PERU PULVERIZED.

Fort Wayne Wins Its First Game of the New Series.

At Peru yesterday the Fort Wayne club defeated the Peruvians 6 to 3. Gallagher and Whalen were the Fort Wayne battery. Only four hits were made off of Gallagher's delivery, and Waite, the Peru pitcher, was hit hard. The score was as follows:

									R	H	E
Peru	0	2	0	0	0	1	0	0	0	3	4	1
Fort Wayne	0	0	5	0	1	0	0	0	0	6	8	1

Battery—Gallagher and Whalen, Waite and Bolan. Umpire—Burnett.

Captain Quirk resumes his work with the club to-day after a rest of several games.

The Indiana Base Ball league consists of the following teams: Anderson, Muncie, Kokomo, Fort Wayne, Peru and Logansport.

The following is the attendance of the major leagues yesterday: Players' league—Buffalo, 874; Cleveland, 450; Chicago, 2,500; Pittsburg, 1,228; total, 5,118. National league—Cincinnati, 1,697; Cleveland, 400; Philadelphia, 1,512; Chicago, 1,753; total, 5,362.

Journal.—The Peru papers are throwing out insinuations about the Fourth of July games in this city, which Burnett umpired. The fact of the matter is that a few of the sports of that town came here and bet on the game and the only chance to get even was to vent their spleen on Burnett, who umpired very impartially, the only kicks by the visitors being made on balls and strikes and they were few. In the decision at the plate in Peru Monday, the Peru catcher even said it was not out and the "grand stand fiends" refused to believe him. Burnett is the "squarest" in the league.

Barnum and Bailey Sued.

PITTSBURG, Pa., July 23.—Julius Possiel brought suit against Barnum and Bailey, the showmen, to recover $20,000 damages for personal injuries. Mr. Possiel attended the circus here on September 24 last, and while getting down from one of the high tiers of seats, slipped, fell and broke his ankle. He alleges that fall was due to the negligence of the circus people.

Woman's Press Association.

TRAVERSE CITY, Mich., July 23.—The first woman's press association ever organized in Michigan was brought into existence here yesterday at a convention held by a large number of newspaper workers. The movement was started several months ago by Miss Etta S. Wilson, of Grand Rapids.

DEATH OF A BANDIT.

A Young Man's Heroism—Leading the Troops to Chavez's Rendezvous.

SAN JUAN DE COSTA RICA, July 23—The notorious bandit Hermanezilio Chavez, of San Salvador, who for the past five years has made travel dangerous on the roads leading into La Liberta, has been arrested, tried, convicted and shot, to the great relief of the country. He was tracked to his lair by a boy of seventeen, whose mother he had maltreated, robbed and killed, and discovered to the troops, by whom he was surrounded, with two of his companions, and captured. The boy, when he heard of the manner of his mother's death threw down the implements with which he was working on a coffee plantation, seized his machette and declared he would never do another day's work until his mother was avenged, and disappeared.

Ten days afterward he came to the police headquarters, said he had discovered the rendezvous of Chavez and his accomplices on an abandoned ranch a few miles out from the city. He led the troops to the place in the dead of night. The bandits, finding themselves trapped, surrendered without a shot.

SLEPT FOR TEN DAYS.

The Singular Case of Miss Lizzie Long at Mount Morris, N. Y.

MOUNT MORRIS, N. Y. July 23.—A singular case is taxing the skill of the local physicians. Miss Lizzie Long, aged twenty-six years, went to sleep on Sunday, July 13, and has not since awakened. On that day she complained of numbness and drowsiness, and was put to bed and medical aid summoned. Restoratives were administered and she passed into what appeared to be a peaceful sleep. On the following day a diagnosis of her condition was made and it was pronounced a case of catalepsy. Up to the present time she has shown no sign of wakefulness, except when ice cold water is applied to her temples and wrists, and even that now fails to cause any very perceptible change. She breathes freely and natually, with pulse nearly normal and temperature slightly above medium. Medicine and nourishment are administered by forcing open her jaws. She is of a robust frame and has been generally healthy. The development of the case is anxiously watched by the medical profession.

Indian Pupils Delayed.

CARLISLE, Pa., July 23.—Owing to the failure of congress to pass the appropriation bills, about sixty pupils of the Indian training school of this city who have completed the course of five years' study prescribed by the government, are still delayed here at the school awaiting transportation to their homes on the various reservations. However, it is thought that some arrangement will be made by Captain Pratt, manager of the school, for their departure soon.

Pool Rooms Raided.

CHICAGO, July 23.—The police yesterday afternoon raided two pool rooms. The first of these was Frank Williams' place at 71 Monroe street; the other, Crawford & Horton's rooms at 141 Madison street, in the rear. About a dozen men were captured and will be arraigned before Justice Prindiville to day.

AN ACTOR'S ODD NOTIONS.

Harry Robinson, of the Wilbur Company, Locked Up a Lunatic.

CINCINNATI, July 23.—Harry Robinson, leading comedian of the A. R. Wilbur Comedy company, was examined for lunacy in the probate court yesterday and was sent to Longview. The affidavit was made by Miss Kate Eckert, the soubrette of the company, to whom he was engaged to be married.

When playing at Leavenworth, Kas., Robinson broke up a matinee performance by refusing to speak his lines. At Fort Scott he purchased a revolver and threatened to take the lives of the whole company. His great ambition was to purchase all the theaters in Kansas City. Finally Manager Wilbur had him committed to the asylum at St. Joseph, Mo., from which he was released only three weeks ago. One of his curious delusions is that some unknown individual is constantly applying an electric battery to him.

PONTIAC, Ill., July 22.—City Marshal Hodge, of this city, was shot in the groin and probably fatally hurt yesterday by Daniel North, whom he was trying to arrest.

DREADFUL PSORIASIS

Covering Entire Body with White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It ran into my eyes, and the physician was afraid I would lose my eye sight altogether. It spread all over my head, and my hair all fell out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the Cuticura Remedies, and after using two bottles Cuticura Resolvent, I could see a change; and after I had taken four bottles, I was almost cured; and when I had used six bottles of Cuticura Resolvent and one box of Cuticura, and one cake of Cuticura Soap, I was cured of the dreadful disease from which I had suffered for five years. I thought the disease would leave a very deep scar, but the Cuticura Remedies cured it without any scars. I cannot express with a pen what I suffered before using the Remedies. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight.

MRS. ROSA KELLY, Rockwell City, Iowa.

Royal Baking Powder

ABSOLUTELY PURE

Peace on Earth

Awaits that countless army of martyrs, whose ranks are constantly recruiting from the victims of nervousness and nervous diseases. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the finest and most genial of tonic per pass, pursued with reasonable persistence. Easier, pleasanter and safer this than to swash the victim till by department with pseudo tonics, alcoholic or the reverse, beef extracts, nerve foods, narcotics, sedatives and poisons in disguise. "Tired Nature's sweet restorer, balmy sleep," is the providential recuperant of weak nerves and this glorious franchise being usually the consequences of sound digestion and increased vigor, the great stomachic which insures both is productive also of repose at the required time. Not unrefreshed awakens the individual who uses it, but vigorous, clear headed and tranquil. Use the Bitters also in fever and ague, rheumatism, kidney troubles, constipation and biliousness.

HAIR ON THE FACE, NECK, ARMS OR ANY PART OF THE PERSON

QUICKLY DISSOLVED AND REMOVED WITH THE NEW SOLUTION

MODENE

AND THE GROWTH FOREVER DESTROYED WITHOUT THE SLIGHTEST INJURY OR DISCOLORATION OF THE MOST DELICATE SKIN.—DISCOVERED BY ACCIDENT.

IN COMPOUNDING, an incomplete mixture was accidentally spilled on the back of the hand, and on washing afterward it was discovered that the hair was completely removed. We purchased the new discovery and named it MODENE. It is perfectly pure, free from all injurious substances, and so simple any one can use it. It acts mildly but surely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other preparation ever used for a like purpose, and no scientific discovery ever attained such wonderful results. IT CANNOT FAIL. If the growth be light, one application will remove it permanently; the heavy growth such as the beard or hair on moles may require two or more applications before all the roots are destroyed, although all hair will be removed at each application, and without the slightest injury or unpleasant feeling when applied or ever afterward. —MODENE SUPERSEDES ELECTROLYSIS.—

—Recommended by all who have tested its merits—Used by people of refinement.—

Gentlemen who do not appreciate nature's gift of a beard, will find a priceless boon in Modene, which does away with shaving. It dissolves and destroys the life principle of the hair, thereby rendering its future growth an utter impossibility, and is guaranteed to be as harmless as water to the skin. Young ladies who find an embarrassing growth of hair coming, should use Modene to destroy its growth. Modene sent by mail, in safety mailing cases, postage paid, (securely sealed from observation) on receipt of price, $1.00 per bottle. Send money by letter, with your full address written plainly. Correspondence sacredly private. Postage stamps received the same as cash. AT ANY STATION NOT KEPT AT HAND THIS PAPER.

A BAD WRECK

Occurs in the Yards of the Pennsylvania Company---The Local Budget.

Quite a bad wreck took place yesterday afternoon at the Pittsburg yards. A north bound freight of the Grand Rapids road, was pulling out of the yards at a low rate of speed. One of the switches was accidentally left open and the train passed off the main track and ran into switch engine No. 20, of the Pittsburg road, which was switching some cars on the next track. The fireman and engineers on both engines saw the danger and jumped off. The Grand Rapids freight went crashing into the other train and threw seven cars off the track, upsetting them and smashing the frame work on three of them almost to pieces, and scattering the contents. The cab of the switch engine was broken to pieces and the engine was very badly damaged and will have to be placed in the shop for repairs. The wrecking crew were called out and the track was soon cleared without delaying any of the passenger trains. Luckily no one was injured. The loss to the company will be several thousand dollars. The blame is laid on the switch tender, who should have had the switch turned so that the freight would have passed on the main track.

The railway men's union meeting at Logansport Sunday was very largely attended. A private car has just been completed for the president of the Mexican Central road, which is said to be the most perfect in its appointments of any private car yet constructed. As it weighs 89,000 pounds there will be some grumbling done by the engineers of some of the fast express trains if they are asked to haul this car on the rear of a heavy Pullman or Wagner train.

In speaking of the new order on the Wabash prohibiting flannel shirts, the Toledo Bee suggests that it might be well for the Wabash to import a bevy of English dudes to punch its tickets, that the fastidious officials of the road might not have their vision offended by the sight of the vulgar flannel shirt. Business men find the flannel shirt a boon in warm weather—why should it be denied the conductor?

A recent invention consists of a fender for street railway cars run by electricity. It presents a platform capacious enough to receive a victim so unfortunate as to be caught upon the track before the car. At a slope before it is a heavy four-ply rubber belting, pliable enough to pass over paving stones and similar objects, but sufficiently rigid to prevent an arm or leg from being drawn under the fender.

The shipments of flour, grain and provisions from Chicago to the seaboard by the lines of the Central Traffic Association last week aggregated 24,437 tons, against 18,086 for the preceeding week, a increase of 6,351 tons, and against 18,849 for the corresponding week last year, an increase of 6,288 tons. The Vanderbilt lines carried 46.1 per cent. of the whole business; the Pennsylvania lines 21.1; the Chicago & Grand Trunk, 21.8, and the Baltimore & Ohio, 11.

THE CITY COUNCIL

Decides to Make an Additional Levy of Five Per Cent. For School Purposes.

The city council met in regular session last night at the council chambers. The principal business of interest transacted was that relating to the additional tax levy, which was defeated at the session of two weeks ago. The subject was introduced by the report of the board of school trustees that was demanded by the council at its last session, for the purpose of securing certain information relative to the conduct of the schools. What was done by the council is told by the Morning Press, and we reproduce it.

The trustees in their report stated that there are now school buildings, in which there are employed 107 teachers, whose salaries range from $36 to $160 per month. The report stated that the nativity of these teachers could not be given, but that eighty-five of them were residents of this city at the time of and prior to their appointments, and received their education here. Nine of the teachers were residents at the time of their appointment, one a special teacher of reading was secured from the Boston school of oratory, one teacher in the department of science came from Wabash college, and eleven were chosen from outside cities according to the peculiar fitness for the work assigned them, and their employment occurred at periods ranging nine years past. The board reported that $20,700 had been expended for necessary repairs, and that there is now in the tuition fund $36,625.86, and in the general fund $42,748.02. The report bears the signatures of J. M. Moritz and A. E. Hoffman, president and secretary of the board respectively. It was referred to the committee on education.

As soon as the report was disposed of Mr. Boltz arose and stated that since the school matter had been called up he would like to have the resolution made by Mr. Vordermark, and defeated at the last meeting, providing for an additional levy of eight cents on each $100 valuation, reconsidered. He made a motion to that effect which was promptly seconded and carried. Thereupon Mr. Boltz moved that the levy provided for in the resolutson be reduced to five cents on the $100 valuation. The motion was not argued and on an immediate vote was carried. The question of carrying the resolution as amended, called Mr. Gordon to his feet, and he proceeded to oppose it in a vigorous manner, contending that there was plenty of money in the treasurer to run the schools next year. He called attention also to the $42,000 in the general fund, and thought that the members in favor of the levy had not made sufficient effort to see how well the school funds are supplied. Mr. Boltz defended his motion by stating that so far as he could determine, although there might be enough money on hand to run the schools next year, the treasury would be bankrupted for 1891. He informed the council that the $42,000 referred to by Mr. Gordon could not be used except for new buildings and grounds, and was excluded from application to tuition purposes. Mr. Cody opposed the resolution on the same ground that Mr. Gordon assumed. He took occasion to severely censure the board of trustees for alleged neglect of duty, and stated that their report was not what the council had asked for. He termed it a blindfold report, and said that the members of the board had given evidence that they were incapable of holding their positions on it. The resolution was carried by a vote of fourteen to four. This action will have the effect of restoring the schools to the condition they were at the end of last year.

THE MUTUAL LIFE INSURANCE COMPANY,

OF NEW YORK, SECURES IT.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

—E. C. POTTER & CO.—

No. 799. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. C. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ——— LARS.

$578,345 00/100 — 29 DEC 28 1889. — CERTIFIED, Payable through New York Clearing House, N. B. A. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 in cash without any security whatever, and only the PROMISE of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that is'nt an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

REPORT OF SPECIAL COMMITTEE.

We, a majority of your special committee appointed to consider and report upon the propriety and necessity for a Ninth ward sewer, running from the grounds of the Catholic asylum south to Third street and thence to the St. Marys river, respectfully report, that in our opinion drainage is absolutely necessary in the locality referred to. The orphan asylum has no drainage except the old bed of the feeder canal, and when drainage is placed thereon it remains foul and offensive to the public health in general but to the little inmates of the asylum in particular. It will, built on the line suggested, afford drainage for many cellars and outhouses.

Before any final resolution for its construction is passed some proceedings will be necessary to authorize its construction in and under private grounds, or its course will have to be slightly modified.

We recommend the construction of a sewer from the points named.

Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scarey. We have found Chamberlain's Remedy the very thing to straighten one out in such cases, and always keep it about. It is somewhat similar to the usual cholera cures, but seems to contain ingredients that render it more pleasant to take, and that do their work more quickly. Sheriff Devereaux tells us that he is subject to cholera morbus, and recently felt a spell coming on, when he obtained a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and two doses made him all right. We are not writing this for a pay testimonial, but to let our readers know what is a good thing to keep handy in the house.—Troy, Kas., Chief. For sale by George H. Loesch, druggist.

ROUNDING A CURVE

Two Trains Crash Together and Four Men are Killed—Other Fatal Accidents.

DARING BANK ROBBER.

"Rev. Mr. Smith" Helps Himself to $1,500 in Cash in Broad Daylight.

QUEBEC, July 23.—A daring bank robbery was perpetrated here yesterday afternoon. A buggy drove up to the door of the upper town branch of the Union bank on Louis street, and a man entered and told Mr. Vesey, the manager, that the gentleman in the buggy at the door wanted to speak to him about opening an account, but was lame and unable to leave the vehicle. Mr. Vesey was alone at the time, but went to the window to speak to the occupant of the vehicle, and while his head was turned, the man who came inside and who presented a card bearing the name of "Rev Mr Smith," dashed through the front door with a tin box which he picked up. It was several minutes before Vesey discovered the theft and at once notified the police, but the sharpers had got too good a start and have not yet been heard from. They hired their buggy from a livery stable that morning and that too is missing. The box contained only $1,300 in cash, but was filled with valuable bonds, including five bonds of the town of Levis, for a thousand dollars each.

THE MEXICAN BATTLE.

The Salvadoreans Gain a Decisive Victory Over the Guatemalans.

LA LIBERTA, San Salvador, July 23.—The latest news from the frontier confirms the reports in respect to the victory of the Salvadoreans over the forces of Guatemala in the battle of July 17th. The Guatemalans, 4,000 strong, invaded Salvador under command of Camileo Alvarez, Narceo Avillez and Pedro and Perz Barillas. The killed numbered over 200, with many wounded. Thirty refugees from Salvador, among them General Monterrosa, having given themselves up to the Salvadoreans, General Vilavicencez, a Salvadorean traitor, attacked the Salvadorean forces on July 18th and was defeated. Guatemala commenced the warfare without a declaration of war. Many cases of rifles shipped from San Francisco for the Salvadorean government have been seized aboard the Pacific main steamship by the Guatemalian government. It is believed that General Fabio Moran, who was aboard the steamship and who is an aspirant for the presidency of Salvador, acted as informer to Guatemala and that the government seized the arms on information that he furnished.

HANDSOMELY REWARDED.

PORTLAND, Maine, July 23.—Yesterday a wealthy Montreal man attempted to board a train at Elm Orchard, after it had started. He ran to the rear end of the baggage car and caught the railing, but lost his footing. As he was hanging to the railing he swung between the cars and was losing his grip, when Frank E. Kelly, of South Berwick, a boy peddler, saw him and managed to pull him on board the train. When the man recovered he asked the lad's name and said he had saved his life and promised to send him a check for $5,000 when he reached Montreal.

The largest portion of the cargo goes to Chicago. Special trains will take it east.

EAGLE LAKE.

The Spring Fountain Park Assembly Increases in Interest.

EAGLE LAKE, July 23.

Special to THE SENTINEL.

The largest audience which has hitherto assembled in the auditorium, gathered yesterday morning for the purpose of listening to the celebrated and witty lecturer, Dr. Willits, of Dayton. Inimitable in expression and possessing a fund of rich humor, he held his audience alternately in rapt attention and laughter. The lecture was entitled "Sunshine." At the close of the lecture by request, the Linden Quartet, of Chicago, gave a laughable selection entitled "Tacks."

The event of the afternoon's session was a lecture by Rev. C. H. Caton, D. D., of Colorado, who accomplished such elegant work in Denver, by driving out the gamblers and saloons. He spoke of the relation of the labor question to the saloon, and argued that the poverty of the masses was owing not to luck, but waiting to make most of their opportunities. He contended that religion for the rich and poor were not alike; that in all great cities poverty marked the places of religious worship among the poor, while luxury followed the dwellings of the rich men. Politics, he believed, would yet have to be promulgated by the pulpit.

At 4:30 a grand concert was given in the auditorium, in which a well and specially trained chorus took part, under the direction of Professor Clippinger, of Chicago.

"Ireland" and "Scotland" were the themes of Dr. M. M. Parkhurst's discourse at the evening session. He spoke of the beauties of the scenery, graphically describing those parts having historic interest or world-wide reputation. The lecture was illustrated by some beautiful stereopticon views.

The lecture of the famous Bostonian, Rev. Joseph Cook, "Does Death End All?" was a truly great effort. Not alone an oratorical masterpiece, the discourse abounds with scientific research and the labor of years in collecting material. It was so continuous and replete with technicalities that an intelligent synopsis would be impossible.

There seems to be no doubt that the first assembly will be a success this season and a greater one in following years. An old Chautauquan, who was present at Eagle Lake, said that though a frequent visitor at the opening of these assemblies, he had never attended one under such auspicious circumstances.

Thomas Adams, arrested by Officer Limecooley, and Louis Strow, arrested by Officer Stoll, were before the mayor to-day on the charge of drunkenness. Adams was sent to jail and Strow paid.

Miss Anna Friday, a chorus girl with the Bennett-Moulton Opera company, is the guest of Mr. and Mrs. Henry Schmidt, of the west side. Miss Friday formerly lived in this city. She will join her company in New York soon.

Yesterday afternoon Mrs. Baldwin chaperoned the following party to Rome City: Miss Minnie Hill, of Flint, Mich.; Misses Bessie Baldwin, Agnes Seabrease and Grace Bass; Messrs. Sage, of Cincinnati; Tompkins, of New York, and S. W. Seabrease, jr.

Jake Seibold has returned from Atlanta, Ga., where he attended a convention of dentists. Enroute home he stopped at Chattanooga, Tenn., and was the guest of Joe Beegan, formerly of this city. He says Mr. Beegan is well, notwithstanding other reports.

Fred Needham will not leave for Vincennes, his new location, until August 20, and the Rich hotel business under its present management will not be closed down until that time. As mentioned in THE SENTINEL some days ago the house will then be improved by Sanford Rich, the owner.

Miss Ella Koontz, a teacher in the Chicago conservatory of music, is visiting her sister, Miss Carrie, a teacher of the conservatory in this city. Miss Koontz not only graduated from the Chicago school, but also from the Fort Wayne conservatory four years ago. She will leave for Camden, Ind., to-night.

LIKE A SERPENT!

Descends a Storm Cloud in Minnesota Demolishing Buildings and Doing Deadly Work.

MARSHAL, Minn., July 23.—At 5:30 yesterday a black cloud, resembling a great serpent, reached downward from the dense black masses of storm cloud that had formed during the afternoon, and moving in a southeasterly direction demolished the buildings of three farmers living nine miles northwest of here. A child of Felix Dearcan had its leg broken, another had its head crushed and died during the night. Mrs. Dearcan was also seriously bruised. Mrs. A. M. Opdal and child were blown by the cyclone on to a wire fence and seriously bruised. Two of Opdahl's horses were carried from the barn to a pasture near by without injury.

DEATH OF JOHN HOLT.

A Well-Known Englishman Called Home—Death of Mrs. Engel Holman.

John Holt, an old and highly respected citizen, who has been ill for a few weeks past, died last night as the clock struck the hour of 12, at his home, 266 DeWald street. The deceased was seventy-one years of age and the cause of his death is attributable to complications superinduced by his advanced years. Mr. Holt was born in Manchester, England, but was for upwards of twenty-five years a resident of Fort Wayne, being employed much of that time as a boiler-maker in the Wabash shop. Besides a widow, four sons survive him, as follows: Benjamin and John, of Dakota; Walter, of Roncovert, W. Va., and Alfred, of Wisconsin, the latter two of whom were at his bedside. The funeral will be announced hereafter.

Mrs. Engel Holman, of Marion township, died last night of old age, having attained her seventy-sixth year. The deceased leaves several married children. She was born in Hanover, Germany, and was a charitable and kind old lady, who was loved and esteemed. The funeral will take place to-morrow at 10 a. m., from the residence on the Decatur gravel road.

HYMENIAL HAPPINESS.

David B. Schlatter and Mary V. Mowrer Give Their Friends a Surprise.

This evening, at the home of County Treasurer and Mrs. Isaac Mowrer, corner of Main and Jackson streets, will occur the marriage of their winning and accomplished daughter, Mary V., to David D. Schlatter, a popular young clerk in the hardware store of Pfeiffer & Schlatter. The ceremony will be performed by Rev. C. C. Albertson, of Goshen, Indiana, and only intimate friends and relatives will be present. After the nuptial knot is tied an elegant reception will be given in honor of the event. Mr. and Mrs. Schlatter will leave for Mackinaw and a tour of the lakes, to be absent about ten days. The wedding has been kept very quiet and the affair will create quite a stir in social circles.

DESTROYING CROPS.

The Grasshopper Making Ravages in Jefferson Township.

A prominent farmer of Jefferson township, who was in the city to-day, gave the information that all of the farmers he knew of out in his township, were cutting their oats green on account of the ravages of the grasshopper, which infests that locality. He said that in some fields the grain was completely destroyed. He thought that between the drouth and the grasshopper, the crops in this portion of the state would be almost a failure this year.

STOLL AND SALOONS.

A Police Officer Opens Fight on Saloon-keepers.

Officer Henry Stoll has opened fight on saloon-keeps who persist in violating the law regulating their business. To-day in Justice Ryan's court he filed his first two affidavits, both against Joseph Reigel, bar-tender for Fred C. Bolle, at 29 Calhoun street, one for selling drinks after 11 o'clock and the other for doing the same on Sunday.

Quite a number of saloons are doing Sunday business, notwithstanding the fact that we have a "reform" mayor.

THIS DAY IN THE PAST.

1754—Death of Alexander de Beauharnais, first husband of the Empress Josephine, aged 51.
1853—Insurrection in Ireland, led by Robert Emmet.
1810—Charlotte Cushman born in Boston.
1860—The Prince of Wales and suite landed at St. Johns, N. B., on a visit to America.
1852—The Great Eastern sailed from Valencia, Ireland, to lay 2,200 miles of cable. The expedition failed.
1858—The American end of the French Atlantic cable laid at Duxbury, Mass.
1870—Gen. Wolseley of the British army, then colonel, arrived at Fort Garry, Manitoba, with troops and suppressed an insurrection.
1873—A French loan of $120,000,000 announced, nearly twelve times the amount subscribed for in Paris alone.
1875—Death of Isaac M. Singer, of sewing machine fame.
1878—Death of Minnie Warren, dwarf wife of Commodore Nutt, one of the smallest known species of humanity.
1883—Gen. U. S. Grant died at Mt. MacGregor, N. Y. aged 63.
1887—Belgium voted $2,020,000 for New Congo railroad, Africa.

THE federal election bill is a menace to the liberty of the people and a dangerous measure.

THE candidates for state offices on both the democratic and republican tickets, are hustling around through the Indiana counties.

THE death of Mr. Walker, of Missouri, the ninth member of congress who has died this session, makes the greatest record of mortality in congress ever known.

BEFORE leaving for Washington Mr. Hale declared emphatically that Mr. Blaine and the president were in perfect harmony. Mr. Blaine aimed to uphold the administration in every particular.

THE current number of Science contains an interesting article on "Tornadoes" in which it is asserted that during the period between 1873 and 1889 215 tornadoes visited Kansas, which is a larger showing than is made by any other state in the union.

A SPECIAL dispatch from Cape May, N. J., says: "Mrs. Harrison says that the president had refused to have the cottage accepted as a gift, but liking Cape May so well, especially the cottage, he had bought it outright. The statement in the newspapers that the price was $10,000 was untrue and the real price will not yet be made known."

THE city council did right at its meeting last night in raising the levy for school purposes. We ought not, under any circumstances, to allow our public schools to deteriorate from their present high standard. Give our rising generation the best education possible. The public schools are the safe-guard of the nation and they should be liberally supported.

A WASHINGTON special quotes Director of the Mint Leach as saying the advance in the price of silver is due to speculation. New York parties are engaged in getting up a corner in anticipation of the new law which goes into effect September 13. The Western National bank has stored away about seven million ounces, and upwards of two million ounces are held by others in that city. The market may go still higher.

THE veteran Dan Rice is in Albany, N. Y., says the Dramatic News, visiting his old friend, Patrick Ryan. Despite Mr. Rice's three score years, he looks as hale and hearty as when he made his fathers and grandfathers merry by his wit. The old saying, "once in the show business, always in it," is exemplified in the case of Dan Rice, who announces his intention to return to the sawdust again, with Mr. Patrick Ryan. It will be an old-time one-ring circus, and will open in Galveston, Tex., in September, and play the southern cities, coming north in the spring.

THE election in Indiana this year will be an important one, and recognizing this fact, although neither party has put a state ticket in the field, both the democrats and republicans have opened headquarters at Indianapolis and are doing active work. It has been semi-officially announced that the contest this year is going to be over the legislature. Chairman Michener's plan is to sacrifice anything and everything to secure members of the legislature and in line time instructions to that effect will go out to party workers throughout the state. Chairman Michener having decided upon such a movement, the democrats in self-defense will be compelled to follow suit. The new legislature will have a United States senator to elect, and as the republicans will, it is said, redistrict the state if they get the control, it is probable that the campaign will begin to center around the legislative body.

THE Guatemala minister has received a telegram from the Guatemala minister of foreign affairs, which says: "Against the positive orders which the government had given, one of our officers took some of his troops across the line. There was skirmishing of slight importance and our troops, few in number, were ordered to return. They lost nothing. The officer who disobeyed orders by crossing the frontier is under arrest and will be court-martialed." The president of Guatemala telegraphed the minister that "the Salvador enemies of Ezeta were met and routed by Ezeta."

MRS. JEFFERSON DAVIS, in a letter to a friend in New York, thus writes: "I am not surprised that you believe that our daughter Varina ('Winnie') is our only surviving child, as almost in every notice of her it is stated that she is 'the only daughter of the late Jefferson Davis.' But it is a cause of constantly recurring thankfulness to me that if we were to be deprived of all our sons by death two daughters survive. Margaret, the elder, is the wife of J. A. Hayes, a Mississippian by birth, now a banker in Colorado Springs. She was most tenderly beloved by her father and it was one of the sorrows of his later years that Mr. Hayes' health required her residence to be so far removed from ours."

PERU PULVERIZED.

Fort Wayne Wins Its First Game of the New Series.

At Peru yesterday the Fort Wayne club defeated the Peruvians 6 to 3. Gallagher and Whalen were the Fort Wayne battery. Only four hits were made off of Gallagher's delivery, and Waite, the Peru pitcher, was bit hard. The score was as follows:

	R	H	E
Peru	3	2	0
Fort Wayne	6	9	1

Battery—Gallagher and Whalen, Waite and Bolan. Umpire—Barnett.

The Indiana Base Ball league consists of the following teams: Anderson, Muncie, Kokomo, Fort Wayne, Peru and Logansport.
The following is the attendance of the major leagues yesterday: Players' league—Buffalo, 674; Cleveland, 450; Chicago, 2,500; Pittsburg, 1,228; total, 5,118. National league—Cincinnati, 1,697; Cleveland, 400; Philadelphia, 1,512; Chicago, 1,753; total, 5,362.
Journal.—The Peru papers are throwing out insinuations about the Fourth of July games in this city, which Burnett umpired. The fact of the matter is that a few of the sports of that town came here and bet on the game and the only chance to get even was to vent their spleen on Burnett, who umpired very impartially, the only kicks by the visitors being made on balls and strikes and they were few. In the decision at the plate in Peru Monday, the Peru catcher even said it was not out and the "grand stand fiends" refused to believe him. Burnett is the "squarest" in the league.

Bosom and Bailey Sued.

PITTSBURG, Pa., July 23.—Julius Fossiel brought suit against Barnum and Bailey, the showmen, to recover $20,000 damages for personal injuries. Mr. Fossiel attended the circus here on September 24 last, and while getting down from one of the high tiers of seats, slipped, fell and broke his ankle. He alleges that ball was due to the negligence of the circus people.

Women's Press Association.

TRAVERSE CITY, Mich., July 23.—The first women's press association ever organized in Michigan was brought into existence here yesterday at a convention held by a large number of newspaper workers. The movement was started several months ago by Miss Etta S. Wilson, of Grand Rapids.

DEATH OF A BANDIT.

A Young Bank Brokers—Leading the Troops to Chaves's Rendezvous.

SAN JUAN DE COSTA RICA, July 23.—The notorious bandit Hermenzilio Chavez, of San Salvador, who for the past five years has made travel dangerous on the roads leading into La Libertad, has been arrested, tried, convicted and shot, to the great relief of the country. He was tracked to his lair by a boy of seventeen, whose mother he had maltreated, robbed and killed, and discovered to the troops, by whom he was surrounded, with two of his companions, and captured. The boy, when he heard of the manner of his mother's death threw down the implements with which he was working on a coffee plantation, seized his machette and declared he would never do another day's work until his mother was avenged, and disappeared.

Ten days afterward he came to the police headquarters, said he had discovered the rendezvous of Chavez and his accomplices on an abandoned ranch a few miles out from the city. He led the troops to the place in the dead of night. The bandits, finding themselves trapped, surrendered without a shot.

SLEPT FOR TEN DAYS.

The Singular Case of Miss Lizzie Long at Mount Morris, N. Y.

MOUNT MORRIS, N. Y. July 23.—A singular case is taxing the skill of the local physicians. Miss Lizzie Long, aged twenty-six years, went to sleep on Sunday, July 13, and has not since awakened. On that day she complained of numbness and drowsiness, and was put to bed and medical aid summoned. Restoratives were administered and she passed into what appeared to be a peaceful sleep. On the following day a diagnosis of her condition was made and it was pronounced a case of catalepsy. Up to the present time she has shown no sign of wakefulness, except when ice cold water is applied to her temples and wrists, and even that now fails to cause any very perceptible change. She breathes freely and naturally, with pulse nearly normal and temperature slightly above medium. Medicine and nourishment are administered by forcing open her jaws. She is of a robust frame and has been generally healthy. The development of the case is anxiously watched by the medical profession.

Indian Pupils Delayed.

CARLISLE, Pa., July 23.—Owing to the failure of congress to pass the appropriation bills, about sixty pupils of the Indian training school of this city who have completed the course of five years' study prescribed by the government, are still delayed here at the school awaiting transportation to their homes on the various reservations. However, it is thought that some arrangement will be made by Captain Pratt, manager of the school, for their departure soon.

Pool Rooms Raided.

CHICAGO, July 23.—The police yesterday afternoon raided two pool rooms. The first of these was Frank Williams' place at 71 Monroe street; the other, Crawford & Horton's rooms at 141 Madison street, in the rear. About a dozen men were captured and will be arraigned before Justice Prindiville to day.

AN ACTOR'S ODD NOTIONS.

Harry Robinson, of the Wilbur Company, Locked Up, a Lunatic.

CINCINNATI, July 23.—Harry Robinson, leading comedian of the A. R. Wilbur Comedy company, was examined for lunacy in the probate court yesterday and was sent to Longview. The affidavit was made by Miss Kate Eckert, the soubrette of the company, to whom he was engaged to be married.

When playing at Leavenworth, Kas., Robinson broke up the matinee performances by refusing to speak his lines. At Fort Scott he purchased a revolver and threatened to take the lives of the whole company. His great ambition was to purchase all the theaters in Kansas City. Finally Manager Wilbur had him committed to the asylum at St. Joseph, Mo., from which he was released only three weeks ago. One of his curious delusions is that some unknown individual is constantly applying an electric battery to him.

DREADFUL PSORIASIS

Covering Entire Body with White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading across my nose, and almost covering my face. It then broke into my ears, and the physician was afraid I would lose my eyesight altogether. It spread all over my head, and my hair began to fall out, until I was entirely bald-headed; it then broke out on my arms and shoulders, until my arms were just one sore. It covered my entire body, my face, head and shoulders being the worst. The white scales fell constantly from my head, shoulders and arms; the skin would thicken and be red and very itchy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the Cuticura Remedies, and after using two bottles Cuticura Resolvent, I could see a change; after I had taken four bottles, I was almost cured; and when I had used one box of Cuticura Resolvent and one box of Cuticura, and one cake of Cuticura Soap, I was cured of the dreadful disease from which I had suffered five years. I thought the disease would leave a very deep scar, but the Cuticura Remedies cured it without any scars. I cannot express with a pen what I suffered before using the Remedies. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and as in my youth.

Peace on Earth

Awaits that countless army of martyrs, whose ranks are constantly recruiting from the victims of nervousness and nervous diseases. The price of the boon is a systematic course of Hostetter's Stomach Bitters, the direct and most genial of tonic per se, pursued with reasonable persistence. Easier, pleasanter and safer this than to wrack the vitality by acquaintance with pseudo-tonics, alcoholic or the reverse, beer extracts, nerve foods, narcotics, sedatives and poisons in disguise. Tried Nature's surest restorer, kidney stocks. In the proximate derangement of weak nerves and this glorious tonic-alterative being mainly the consequence of sound digestion and increased vigor, the great stomachic which restores both is productive also of repose at the required time. Not unfrequent anodyne the indifferent who uses it, but vigorous, clear headed and tranquil. Use the bitters also in fever and ague, rheumatism, kidney troubles, constipation and biliousness.

"There goes my corset-lace again!"

And it generally happens at an inconvenient time. Do you know why it breaks? The eyelet cuts it.

Eyelets are going to cut no more; for the two best corsets are eyeleted with loops of corset lace, which neither cut nor show through a thin dress.

The Ball is the easy corset that has soft eyelets; the Kabo has them also. The Kabo may be called the corset that stays where you put it.

Wear them two or three weeks; and then, if not satisfactory, take them back and get your money.

A BAD WRECK

Smash Up in the Yards of the Pennsylvania Company---The Local Budget.

Quite a bad wreck took place yesterday afternoon at the Pittsburg yards. A north bound freight of the Grand Rapids road, was pulling out of the yards at a low rate of speed. One of the switches was accidentally left open and the train passed off the main track and ran into switch engine No. 20, of the Pittsburg road, which was switching some cars on the next track. The fireman and engineers on both engines saw the danger and jumped off. The Grand Rapids freight went crashing into the other train and threw seven cars off the track, upsetting them and smashing the frame work on three of them almost to pieces, and scattering the contents. The cab of the switch engine was broken to pieces and the engine was very badly damaged and will have to be placed in the shop for repairs. The wrecking crew were called out and the track was soon cleared without delaying any of the passenger trains. Luckily no one was injured. The loss to the company will be several thousand dollars. The blame is laid on the switch tender, who should have had the switch turned so that the freight would have passed on the main track.

GOSSIP OF THE DAY.

J. L. Lamar, engineer on the Pittsburg road, is off duty on a vacation.

W. Notestine and J. M. Rich, firemen on the Grand Rapids road, are off duty on account of sickness.

J. Lanigan, an engineer on the Pittsburg road, will attend the excursion to Lake Maxinkuckee, to-morrow.

F. A. Togtmeyer, of the Pittsburg round house, had the second finger of his right hand mashed yesterday morning.

The Baldwin locomotive works have shipped three engines for the new railroad which is to run from Joppa to Jerusalem.

C. C. Bookwalter has resumed his position at the east Pittsburg shops, after an absence of five weeks on account of a very sore arm.

M. H. Morrison, of the Pittsburg blacksmith shop, had his thumb badly injured this morning. Dr. Wm. Raale dressed the injured member.

T. F. Golden and E. W. Dartnell, of the Pittsburg offices, made a fast run to New Haven on their bicycles last evening. They made the trip in exactly fifty-nine minutes.

The railway men's union meeting at Logansport Sunday was very largely attended. A resolution was adopted calling on all railway organizations to send to Washington a protest against the proposed legislation exempting railway companies. Among the speakers was Mr. John F. O'Reilly, of this city, who represented the Brotherhood of Firemen.

The desire for an advance in pay has reached the railway telegraph operators. On several roads, in the last few days, the officials have been asked if they could not consistently advance the pay of their operators.

The new Penn and Detroit road will be connected with the main line of the Wabash at a point about three miles east of Peru. The Wabash will then use a new track from that point into town which is now being built.

John McKeever, engineer on the Vandalia, has just celebrated his sixty-second birthday. He has been running an engine on the Terre Haute and Indianapolis road for thirty-five years, and is one of the best engineers on the road.

A private car has just been completed for the president of the Mexican Central road, which is said to be the most perfect in its appointments of any private car yet constructed. As it weighs 89,000 pounds there will be some grumbling done by the engineers of some of the fast express trains if they are asked to haul this car on the rear of a heavy Pullman or Wagner train.

In speaking of the new order on the Wabash prohibiting flannel shirts, the Toledo Bee suggests that it might be well for the Wabash to import a bevy of English dudes to punch its tickets, that the fastidious officials of the road might not have their vision offended by the sight of the vulgar flannel shirt. Business men find the flannel shirt a boon in warm weather—why should it be denied the conductor?

A recent invention consists of a fender for street railway cars run by electricity. It presents a platform capacious enough to receive a victim so unfortunate as to be caught upon the track before the car. At a slope before it is a heavy four-ply rubber belting, pliable enough to pass over paving stones and similar objects, but sufficiently rigid to prevent an arm or leg from being drawn under the fender.

The shipments of flour, grain and provisions from Chicago to the seaboard by the lines of the Central Traffic Association last week aggregated 24,437 tons, against 18,086 for the preceding week, a increase of 6,351 tons, and against 18,840 for the corresponding week last year, an increase of 6,288 tons. The Vanderbilt lines carried 46.1 per cent. of the whole business; the Pennsylvania lines 21.1; the Chicago & Grand Trunk, 21.8, and the Baltimore & Ohio, 11.

"Just as Good,"

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I had taken Hood's Sarsaparilla, knew what it was, was satisfied with it, and did not want any other. When I began taking Hood's Sarsaparilla I was feeling real miserable with dyspepsia, and so weak that at times I could hardly

THE CITY COUNCIL

Decides to Make an Additional Levy of Five Per Cent. For School Purposes.

The city council met in regular session last night at the council chambers. The principal business of interest transacted was that relating to the additional tax levy, which was defeated at the session of two weeks ago. The subject was introduced by the report of the board of school trustees that was demanded by the council at its last session, for the purpose of securing certain information relative to the conduct of the schools. What was done by the council is told by the Morning Press, and we reproduce it.

The trustees in their report stated that there are now school buildings, in which there are employed 107 teachers, whose salaries range from $36 to $160 per month. The report stated that the nativity of these teachers could not be given, but that eighty-five of them were residents of this city at the time of and prior to their appointments, and received their education here. Nine of the teachers were residents at the time of their appointment, one a special teacher of reading was secured from the Boston school of oratory, one teacher in the department of science came from Wabash college, and eleven were chosen from outside cities according to the peculiar fitness for the work assigned them, and their employment occurred at periods ranging nine years past. The board reported that $20,700 had been expended for necessary repairs, and that there is now in the tuition fund $36,625.86, and in the general fund $42,748.02. The report bears the signatures of J. M. Moritz and A. E. Hoffman, president and secretary of the board respectively. It was referred to the committee on education.

As soon as the report was disposed of Mr. Boltz arose and stated that since the school matter had been called up he would like to have the resolution made by Mr. Vordermark, and defeated at the last meeting, providing for an additional levy of eight cents on each $100 valuation, reconsidered. He made a motion to that effect which was promptly seconded and carried. Thereupon Mr. Boltz moved that the levy provided for in the resolution be reduced to five cents on the $100 valuation. The motion was not argued and on an immediate vote was carried. The question of carrying the resolution as amended, called Mr. Gordon to his feet, and he proceeded to oppose it in a vigorous manner, contending that there was plenty of money in the treasurer to run the schools next year. He called attention also to the $42,000 in the general fund, and thought that the members in favor of the levy had not made sufficient effort to see how well the school funds are supplied. Mr. Boltz defended his motion by stating that so far as he could determine, although there might be enough money on hand to run the schools next year, the treasury would be bankrupted for 1891. He informed the council that the $42,000 referred to by Mr. Gordon could not be used except for new buildings and grounds, and was excluded from application to tuition purposes. Mr. Cody opposed the resolution on the same ground that Mr. Gordon assumed. He took occasion to severely censure the board of trustees for alleged neglect of duty, and stated that their report was not what the council had asked for. He termed it a blindfold report, and said that the members of the board had given evidence that they were incapable of holding their positions on it. The resolution was carried by a vote of four-teen to four. This action will have the effect of restoring the schools to the condition they were at the end of last year.

Nearly $600,000 Paid by Members of one Family for Insurance in the Mutual.—The Most Stupendous Transaction Known in the History of Insurance.—"It has Never Been Done Before; It Never Will Be Done Again."

—E. C. POTTER & CO.—

No. 780. New York, Dec. 24, 1889.

BANK OF NEW YORK.
National Bankers Association.

Pay to the order of L. U. HOPKINS, Genl Executive Agent

Five hundred and Seventy Eight Thousand, Three Hundred and Forty Five ..... DOLLARS.

$578,345.00/100 — 29 DEC 1889 — CERTIFIED, Payable through New York Clearing House, N. B. A. — E. C. POTTER & CO.

The above check was received by the Mutual Life Ins. Co. of New York, for Insurance effected upon the lives of five members of the illustrious Havemeyer family of the City of New York. The Policies selected were the 10 year guarantee contracts of the Mutual Life's with the annuity feature added. Each policy was for the sum of $100,000 and the insured chose to make but one payment, thus commuting the cost. The insurance covered by the above mentioned premium payment of $578,345.00 was upon the lives of Mr. Theo. A. Havemeyer, the well known Merchant of this City, and Four members of his family. Mr. Theo. Havemeyer, is the Austrian Counsel General and a Gentleman of wide influence and of great business sagacity. Mr. E. C. Potter, whose signature is appended to the check, is the son-in-law of Mr. Havemeyer, and is one of the most prominent of bankers and brokers operating upon the stock exchange. There are two significant points for consideration in connection with this Insurance.

First, that the Messrs Havemeyer seeking a profitable and safe investment of a vast fund, selected Life Insurance as offering more advantages and greater security than any other form of investment. Second That they had such faith in the management and stability of the Mutual Life Insurance company of New York, that they willingly entrusted to its care nearly $600,000 to cash at best any security whatever, and only the PREMIUM of the company to pay.

The particulars of the life insurance contracted for by the family of Mr. Theo. A. Havemeyer, with the MUTUAL LIFE INSURANCE COMPANY, by which that institution received a single premium payment of $578,345.00, will excite wonderment and surprise in the world of underwriting, and set the general public to thinking of the possibilities of life insurance as an investment.

The idea of a party with six hundred thousand dollars of spare cash on hand, putting it all into life insurance.

Why didn't they build houses or purchase stocks, or do a dozen other things with it? Life insurance for an investment! That's all very well, some people think, if you must do it. But here are five members of one family engaged in merchantile pursuits, fully alive to the value of every financial scheme of importance in this or any other country, who after examining every tempting investment, came to the conclusion that the safest, most profitable and altogether desirable one, is that offered by the MUTUAL LIFE.

Then think of the fact that all this money, far exceeding half a million dollars, is placed in the hands of the company without other security than its promise to pay. If that isn't an evidence of confidence, what could be?

IT'S THE LARGEST, STRONGEST AND BEST LIFE INSURANCE COMPANY IN THE WORLD. Its assets are thirty millions greater than those of any other American Life Insurance company. Over eighty millions greater than those of any life office in Great Britain, and sixty millions greater than the entire funds of the bank of England, which is the largest banking institution in the world.

The Mutual Life Issues Every Desirable Form of Policy.

REPORT OF SPECIAL COMMITTEE.

We, a majority of your special committee appointed to examine and report upon the propriety and necessity for a Ninth ward sewer, running from the grounds of the Catholic asylum south to Third street and hence to the St. Mary's river, respectfully report that in our opinion drainage is actually necessary in the locality referred to. The cesspool at the asylum is a menace except the old bed of the feeder canal, and when drainage is placed upon it reasons both and offensive to the public health in general but to the little inmates of the asylum in particular. It will, in fact, be impossible to afford drainage for many cellars and outhouses.

Before any final resolution for its construction is passed some proceedings will be necessary to authorize its construction in and through private grounds, or its course will have to be slightly modified.

We recommend the construction of a sewer from the points named.

Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scarey. We have found Chamberlain's Remedy the very thing to straighten one out in such cases, and always keep it about. It is somewhat similar to the usual cholera cures, but seems to contain ingredients that render it more pleasant to take, and that do their work more quickly. Sheriff Devereaux tells us that he is subject to cholera morbus, and recently felt a spell coming on, when he obtained a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and two doses made him all right. We are so willing this for a pay testimonial, but to let our readers know what is a good thing to keep handy in the house.—Troy, Kas., Chief. For sale by George H. Loesch, druggist.
